PRABUDH TOMAR (9922103101)

SAUMYA MANDHYAN (9922103108)

# DSW LAB PROJECT SYNOPSIS

TOPICS: HTML, CSS and JAVASCRIPT

ABSTRACT: The project is a Comic Book Website.

It will have different interfaces for different user (readers and publisher). Apart from just reading the comics in a digital format, it will also consist of weekly, monthly and yearly ranking of the best comics for the user. Several other feature like number of likes, subscriptions, view count, categories separated on the basis of various genres etc.

Our website will be a gateway to a marvelous world of comics, from superheroes and fantasy to science fiction and horror. Dive into the colorful and intricate artistry of comic book panels, where each stroke of the pen and splash of color brings characters to life.

CONCEPTS USED:

HTML

- Tags
- Elements
- Forms
- Tables
- Lists

CSS

- Different styling properties

JAVASCRIPT

- Form Validation
